New Component Boxes from Klein Tools® Allow Further Customization of MODbox System

December 12, 2023 (Lincolnshire, Ill.) Klein Tools (www.kleintools.com), for professionals since 1857, introduces new MODbox Component Boxes, with multiple size and configuration options to fit into your MODbox ecosystem in the way that best fits your jobsite needs.

MODbox Component Boxes (Cat. Nos. 54807MB, 54808MB)

- MODbox component boxes easily interconnect for a customized mobile workstation
- Clear lid to easily view contents for enhanced efficiency and to allow quick assessment of inventory
- Stay-put lid design prevents contents from moving between bins
- Comes with removable bins to organize small parts such as wire nuts, connectors and fasteners
- Made with impact resistant polymers and is IP65 rated for protection against debris and rain
- One handed system release mechanism for quick toolbox removal and reconfiguration
- Organizer bins feature removable dividers, providing increased flexibility for storing essentials

The new MODbox Component Boxes are designed to be durable, portable storage solutions for small parts and tools, says Amina Nunn, product manager at Klein Tools. These component boxes easily connect to the MODbox Mobile Workstation and the stay-put lid design keeps all small parts in their bins.
